String® Pocket Metal

STRING FURNITURE

String® Pocket metal is sold as a complete shelf but is equally flexible as String® System. String® Pocket invites creativity and personality where you can combine two or three String® Pocket shelves into one larger shelf. Mix and match different colours to suit your style and preferences. The perforated metal shelves with low edge, 2 cm, makes it possible to add hooks and rods (30 cm and 58 cm) to increase the storage possibilities. String® Pocket metal is sold as one complete unit containing two wire panels, height 50 cm, and three metal shelves, width 58 cm and depth 15 cm.

Sergelgrå

About the designer

Nisse Strinning, designer of the String® System, was a Swedish architect born in 1917 in the northern part of Sweden. Nisse designed the first String® shelf in 1949 with great help of his wife, Kajsa Strinning. The couple met while studying at KTH. Everything came about when the Swedish publishing house, Bonniers, announced a competition where they were looking for the perfect shelf. High in functionality, modern looking and with fair pricing. String® was selected winner and has been considered a classic Swedish design icon for decades.
