

Cabinet with sliding door

STRING FURNITURE

The cabinets with sliding doors are available in one width, 78 cm, along with two depths, 20 and 30 cm. The cabinets fit into all wire and plex panels from String® System. It is visually pleasing to add a bolder element to your shelf, like a cabinet, which also give you a lot of extra storage. The cabinet consists of one divider placed in the middle along with two adjustable inner shelves. The cabinet's inner dimensions are 4 cm less than the outer dimensions. The cabinets are delivered unassembled.

Product name

NCS 7502-G

outer: H: 37 cm / 14.6 in
inner:

inner:
outer: W: 78 cm / 30.7 in D: 20 cm / 7.9 in

Care and maintenance

Wipe the surface with a clean cloth made of non-abrasive material. Damp wipe with mild cleanser solution (pH-neutral 7-8). You can also make a cleanser of dishwashing liquid and lukewarm water. Make sure to put the cleanser on the cloth and not on the furniture surface, and do not leave the cleanser on the surface. Wipe the surface with the solution, then with pure water and finally with a dry cloth. Do not use ammonia or any hard cleansers since this can cause the veneer to come loose, or dissolve the lacquer. Veneer with a thin lacquer or stained layer surface is to be wiped in the direction of the fibre with a dry cloth. Use furniture care resources without silicone, since it complicates the possibilities for future repainting.

Warranty

String Furniture warrants that this product is free from defects in materials and workmanship for a period of two (2) years from the date of purchase. Please contact us for more information about our warranties.

Recyclability

The shelf brackets are molded from zinc containing 60% recycled material and are recyclable., MDF forms the core of most of our lacquered products and is recyclable.

Strength, durability & safety testing

EN 16121

About the designer

Nisse Strinning, designer of the String® System, was a Swedish architect born in 1917 in the northern part of Sweden. Nisse designed the first String® shelf in 1949 with great help of his wife, Kajsa Strinning. The couple met while studying at KTH. Everything came about when the Swedish publishing house, Bonniers, announced a competition where they were looking for the perfect shelf. High in functionality, modern looking and with fair pricing. String® was selected winner and has been considered a classic Swedish design icon for decades.
