

Metal shelf high edge galvanized

STRING FURNITURE

The galvanized shelves from String® System are created for outdoor use. The shelves with low edge, 2 cm, are available in one width, 58 cm, and two depths, 20 and 30 cm. The shelves with high edge, 7 cm, are available in one width, 58 cm, and one depth, 30 cm. Create a minimalistic shelving combination with only shelves with the same edge height, or mix the two edge heights to create a more dynamic combination. Add accessories to optimize your storage possibilities outdoors. The shelves fit into galvanized wire panels from String® System and they are easy to move around. The galvanized shelves withstand any weather and can stay outside all year round. Each packaging contains one galvanized shelf.

Product name
Metal shelf high edge galvanized, W58 x D30, Galvanized

Launch year
2019

Assortment
String® System

Material
Aluzinc sheet

Max load
25 kg evenly spread across the shelf.

About the designer

Architect and designer Anna von Schewen is considered one of Swedens most progressive and experimental designers. She has together with her partner Björn Dahlström designed several products for String Furniture. Björn Dahlström is also a well-established Swedish industrial designer. He is represented in various museums around the world, including the national Museum for Art, Architecture and Design in Oslo, The Museum of Design & Craft (The Röhsska Museum) in Gothenburg and Victoria & Albert Museum in London.
