Metal shelf high edge

STRING FURNITURE

The metal shelves with high edge are available in two widths, 58 and 78 cm, along with two depths, 20 and 30 cm. The shelves are easy to move around and fit into wire and plex panels from String® System if the shelves and panels have the same depth. The 7 cm high edge creates character and valuable storage space. The perforated shelves are the optimal base to be creative with our accessories. Add hooks, rods, or hanger racks to design your own unique shelf. Each packaging contains one metal shelf.

About the designer

Architect and designer Anna von Schewen is considered one of Swedens most progressive and experimental designers. She has together with her partner Björn Dahlström designed several products for String Furniture. Björn Dahlström is also a well-established Swedish industrial designer. He is represented in various museums around the world, including the national Museum for Art, Architecture and Design in Oslo, The Museum of Design & Craft (The Röhsska Museum) in Gothenburg and Victoria & Albert Museum in London.
