inner:
outer: W: 78 cm / 30.7 in D: 2 cm / 0.8 in

Care and maintenance

Oil treated surfaces are maintained by re-oiling approx. once a year. Wipe the surface with a clean cloth made of non-abrasive material. Grind the surface with a fine paper, size 240-400, in the direction of the fibre. Oil the surface instantly with oil suitable for indoor furniture use. Make sure to put the liquid on the cloth and not directly on the furniture surface. Wipe the surface with a dry cloth and make sure to remove all excess oil. Let it settle for about 12 hours.
