

Plex wall panel

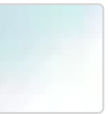

STRING
FURNITURE

The plex wall panels are available in two heights, 50 and 75 cm, along with two depths, 20 and 30 cm. The panels are the base when building your string shelf. When the panels are decided you can start adding products from String® System. Choose among different shelves, cabinets, and drawers. The wall panels are mounted onto a wall and do not touch either the floor or ceiling. The panels are made of laser cut clear Perspex, which gives the shelf an extra light appearance. The panels come in two different packaging's, either with one wall panel or two wall panels.

W: 11.6 D: 21.1 H: 0.8 in

outer: H: 50 cm / 19.7 in
inner:

inner:

outer: W: cm / in D: 30 cm / 11.8 in

Care and maintenance

Wipe the surface with a cloth. Use a clean cloth made of non-abrasive material, since plexiglas easily get scratched. If the spill cannot be cleaned with water alone, use a mild solution of non-abrasive cleaner and water. Make sure there are no ammonia, acetone and others in the cleaner, as it will eat into the plexiglas surface and leave them looking cloudy.

Warranty

String Furniture warrants that this product is free from defects in materials and workmanship for a period of two (2) years from the date of purchase. Please contact us for more information about our warranties.

Strength, durability & safety testing

About the designer

Nisse Strinning, designer of the String® System, was a Swedish architect born in 1917 in the northern part of Sweden. Nisse designed the first String® shelf in 1949 with great help of his wife, Kajsa Strinning. The couple met while studying at KTH. Everything came about when the Swedish publishing house, Bonniers, announced a competition where they were looking for the perfect shelf. High in functionality, modern looking and with fair pricing. String® was selected winner and has been considered a classic Swedish design icon for decades.
